VZ-IPX2718 ADVANTAGES

- **0.074"/1.875mm Pixel Pitch**
- **High Visual Uniformity**
Pixel by pixel calibration technology eliminates the difference in brightness & chromaticity within & between panels, improves the uniformity of display
- **Vivid Color Display (HDR Processing)**
HDR processing technology enhances image quality & vivid color display
- **Convenient Adjustment - Precise Floating Connector**
With precise floating connector, panel and module can achieve three dimension adjustment, which makes the screen surface flat & optimizes bright & dark lines adjustment
- **Higher Reliability - Optional Power & Data Redundancy**
Optional dual receiving cards & dual power supply, the product ensures continuity of information transmission without power or signal loss, particularly for control room & studio scenarios
- **Clearly Visible under Low Brightness**
High grayscale level under low brightness ensures the detail of the image are clearly visible
- **Delicate & Smooth Video**
3840 Hz high refresh rate eliminates streaks on the screen, enhances the clarity & contrast of the image, making the video picture delicate and smooth
- **Front Maintenance**
- **27" Rectangular Type & Wall Mount Available**
- **3-Year Warranty**
